

Cosmetic Formulation Science Diploma

About E3mel Business Medical

E3mel Business Medical is the first educational platform in the Arab world specialized in the medical field. Launched in 2019, it offers training programs tailored for graduates and professionals across various medical and scientific fields, including human medicine, veterinary medicine, sciences, cosmetics, and healthy nutrition. The courses are delivered by a distinguished team of expert doctors, pharmacists, scientists, and veterinarians with extensive experience and advanced skills.

About the Diploma

This diploma equips you with a solid scientific and technical understanding of how skincare, haircare, and body care products are developed—starting from the composition of chemical formulations and the role of each ingredient, through various preparation methods, to the latest techniques in manufacturing and innovation.

It covers a wide range of topics including active and base ingredients in cosmetics, formulation techniques for facial, body, and hair care products, as well as entrepreneurship skills in the beauty industry.

The program is delivered under the supervision of a distinguished team of cosmetic experts and chemists, ensuring both scientifically accurate content and hands-on professional training.

Diploma Accreditations

Who Is This Diploma For?

Cosmetic Formulation Science Diploma For

Recent graduates

Recent graduates seeking to enter the field of cosmetic product manufacturing

Beginners in the cosmetics industry

Beginners in the cosmetics industry who wish to develop and enhance their skills

Benefits to Study This Diploma with **E3mel Business Medical**

01

- ◆ Continuously updated content to keep you aligned with the latest trends in Cosmetic Formulation Science

02

- ◆ Flexible online learning—study anytime, anywhere at your convenience

03

- ◆ Structured and time-efficient study hours to fit your personal schedule and maximize learning

04

- ◆ An accredited certificate that boosts your career opportunities and advancement potential

What Will You Gain from This Diploma?

- You will master the formulation of skincare, haircare, and body care products.
- You will understand the function of each ingredient and how to select suitable alternatives.
- You will explore nano technologies and their applications in cosmetic products.
- You will develop the skills needed to create and launch your own beauty product.
- You will also learn the fundamentals of marketing and entrepreneurship in the cosmetics industry.

Certificate

Learners may also request an accredited certificate from EBU University – USA, within a maximum of 90 days from the date of request

Upon completing all training courses within the Cosmetic Formulation Science Diploma, learners will receive a free accredited certificate from E3mel Business Medical. Additionally, participants have the option to obtain separate certificates for each individual course completed as part of the program.

Study Method

The program duration is 12 months, but it can be completed in a shorter time depending on the learner's pace and willingness to study multiple courses simultaneously.

The diploma consists of 15 training courses, with an assessment at the end of each course. The passing score is 50%.

If the learner does not pass the test, they can retake it one week after the first attempt.

The entire program is delivered online via the academy's platform, and upon successfully passing all courses, learners receive an accredited certificate from E3mel Business Medical.
